Power listed is maximum average conducted output power. The device supports 20 MHz, 40 MHz and 80 MHz bandwidth modes as described in this filing. The product must be installed such that its antenna(s) can provide a separation distance of at least 20 cm from all persons and must not transmit simultaneously with any other transmitter, except in accordance with FCC multi-transmitter product procedures or as described in this filing. The device also supports 915MHz SRD, BT, BLE and 2.4GHz WLAN transmitters.

CC: This device is certified pursuant to two different Part 15 rules sections.
